Dutchess Rail Trail

Mile markers indicate distance from the trail's starting point at the Hopewell Depot. To calculate distance to your destination, please note it is 13 miles from Hopewell Depot to the Walkway Over the Hudson. For example, if you are at mile marker 8 in LaGrange, you are 8 miles from the Hopewell Depot and 5 miles from the Walkway Over the Hudson.

CAUTION: There are steep slopes and drop offs along the former railroad bed on which the Rail Trail has been constructed. Please stay on the trail, supervise children, and proceed with caution.
