McKinney's Consolidated Laws of New York Annotated
Local Finance Law (Refs & Annos)
Chapter 33-A. Of the Consolidated Laws
Article II. Local Indebtedness
Title 1. Power to Contract Indebtedness and Periods of Probable Usefulness

McKinney's Local Finance Law § 11.00

§ 11.00 Periods of probable usefulness

Effective: October 21, 2014

Currentness

a. A municipality, school district or district corporation may not contract indebtedness for any object or purpose for a period longer than the period of probable usefulness set forth below for such object or purpose, provided, however, that for purposes of selling bonds or notes evidencing indebtedness contracted for any two or more objects or purposes, or any combination thereof, for which the periods of probable usefulness as determined pursuant to this section are not all the same, such indebtedness may be contracted for a period no longer than the weighted average period of probable usefulness of the objects or purposes. Unless the context requires otherwise, whenever the phrase "period of probable usefulness" is used in this chapter, it shall include weighted average period of probable usefulness. For purposes of this chapter, indebtedness contracted for an object or purpose (or class of objects or purposes) shall be deemed to be contracted for no longer than the period of probable usefulness of such object or purpose (or class of objects or purposes) irrespective of whether such indebtedness is combined with indebtedness contracted for other objects or purposes (or classes of objects or purposes) for purpose of sale and the combined indebtedness is contracted for the weighted average period of probable usefulness of all of the objects or purposes (or classes of objects or purposes) for which it is contracted. Weighted average period of probable usefulness shall be determined by the governing body by computing the sum of the products derived from multiplying the dollar value of the portion of the proceeds of the indebtedness expected to be received for each object or purpose (or class of objects or purposes) by the period of probable usefulness, or, if less, the maximum authorized maturity of indebtedness to be contracted for such object or purpose (or class of objects or purposes), as determined by the bond resolution authorizing such indebtedness, and dividing the resulting sum by the dollar value of the proceeds expected to be received by the municipality, school district or district corporation from the combined indebtedness. Preliminary costs of surveys, maps, plans, estimates, and hearings in connection with a capital improvement, and costs incidental to such improvement, including but not limited to legal fees, printing or engraving, publication of notices, taking of title, apportionment of costs, and interest during construction, shall be deemed part of the cost of the object or purpose in connection with which they are incurred. Where a municipality is authorized by law to pay to the state or a county all or part of the cost of a capital improvement, the period of probable usefulness determined in this paragraph for a like capital improvement shall be the period of probable usefulness for the municipality's share of the cost of such capital improvement. The period of probable usefulness of each such object or purpose is hereby determined to be as follows:

The provisions of this paragraph shall not apply to a bank or trust company which has been designated as fiscal agent of a municipality, school district or district corporation pursuant to the provisions of paragraph a of this section, unless the finance board of such municipality, school district or district corporation, or in the case of the city of New York the chief fiscal officer thereof, shall by resolution determine that such bank or trust company shall be required to furnish a bond for the faithful performance of its duties as fiscal agent.

c. No municipality, school district or district corporation, or any fiscal agent thereof, shall charge, impose, collect, or receive from the holder of any obligation issued pursuant to this chapter, or issued pursuant to laws in effect prior to the effective date of this chapter, any fee or consideration for any services required to be performed by a fiscal agent pursuant to the provisions of this chapter. However, the holder of an obligation shall bear the expense of preparing new bonds or coupons which he shall request to be issued pursuant to the provisions of title five of this article, also the actual and necessary expenses for the mailing, shipping or the insuring of obligations incurred in connection with the rendition of services performed by a fiscal agent at his request. At least annually every fiscal agent shall render to and file with the finance board of the municipality, school district or district corporation, or in the case of the city of New York the chief fiscal officer thereof, for which he or it acts a statement of all moneys received and disbursed by such agent for the expenses mentioned in this paragraph. Notwithstanding the foregoing provisions of this paragraph, if the finance board of a municipality, school district or district corporation, or in the case of the city of New York the chief fiscal officer thereof, shall determine that it would be to the financial advantage of the municipality, school district or district corporation not to impose and collect such mailing, shipping or insurance charges, it may adopt a resolution directing its fiscal agent not to impose and collect any or all of such charges.

d. Notwithstanding any other provisions of law, the comptroller of the city of New York may prescribe rules and regulations for the registration, conversion, reconversion and transfer of the bonds and notes of the city of New York, including the preparation and substitution of new bonds, for the payment of the principal thereof, redemption premium, if any, and interest thereon, and for other authorized services to be performed by such fiscal agent.

e. Any bank or trust company acting as the fiscal agent of a municipality, school district or district corporation may bid for, purchase, acquire, hold, sell or dispose of obligations of the municipality, school district or district corporation for which it acts as such agent, and may enter into other service contracts with the municipality, school district or district corporation. No bank or trust company acting as such fiscal agent shall print, engrave, or otherwise prepare, new bonds or coupons required in connection with the conversion and reconversion of bonds as provided in title five of this article, if such bank or trust company acts as fiscal agent in such conversion or reconversion.
