Construct New Salt Storage Shed

Project Award: $50,000

Awarded Municipality: Town of Pleasant Valley

Project Description: Construction of a salt storage shed that will shield the salt chemicals from contaminating ground water and other environmentally sensitive areas, while guarding the salt from environmental elements. The new salt shed is a critical necessity, since without it, the Town will incur storage related expenses and be forced to forfeit salt previously purchased and paid for.

Building Department Vehicle

Project Award: $25,000

Awarded Municipality: Town of Rhinebeck

Project Description: Purchase of a 4-wheel drive vehicle to allow the building inspector and code enforcer the ability to conduct the duties of their job without interruption. The current vehicle has exceeded its useful life making this a critical purchase for the Town.

Gardner-Hollow Road Bridge Replacement

Project Award: $100,000

Awarded Municipality: Town of Beekman

Project Description: Replacement of a culvert that has seriously deteriorated creating a potentially hazardous condition. As a safety precaution, weight limits have been reduced on the bridge limiting access for some type of vehicles, including emergency vehicles. Replacement is a priority for the Town and this grant will offset the burden placed on taxpayers.

Lower Mill Road Culvert Replacement

Project Award: $225,000

Awarded Municipality: Town of North East

Project Description: Replacement of the existing undersized culvert with a larger precast concrete box culvert that has a larger capacity and is less prone to obstruction. This grant will reduce the taxpayer burden, while ensuring this critical culvert replacement occurs, in order to eliminate the periodic flooding and resulting road closure.

Police Fleet Replacement

Project Award: $75,000

Awarded Municipality: Town of Hyde Park

Project Description: Replacement of high mileage police patrol vehicles that have exceeded their useful life. This critical purchase will provide safe vehicles for police, while reducing the impact to taxpayers.
Repairs to Financial Plaza Parking Deck
Project Award: $250,000

Awarded Municipality: City of Poughkeepsie

Project Description: Engineering and construction funding to repair the damage to the City’s parking garage, caused by corrosion. The garage has exceeded its useful life and must be repaired. This award will minimize the burden to taxpayers, while ensuring the safety of those parking in the garage.

South Avenue Sidewalk Replacement
Project Award: $50,000

Awarded Municipality: City of Beacon

Project Description: Replacement of deteriorated sidewalks that are well beyond their useful life, posing a hazard to Beacon residents and visitors. This grant will offset the cost of this critical project, while minimizing the burden on taxpayers.

Tall Trees UWWD Connection
Project Award: $225,000

Awarded Municipality: Town of Wappinger

Project Description: Engineering and construction to connect Tall Trees to the United Wappinger Water District, which will remedy the communities long-standing hard water, broken infrastructure, and limited water quantity issues. This award will reduce the bond amount for this critical project, thus reducing the impact on taxpayers.

Water System Upgrades
Project Award: $200,000

Awarded Municipality: Village of Millbrook

Project Description: Engineering and construction to remedy the Village’s water issues which warrants additional treatment be provided in order for it to meet standards. This grant will reduce the bond amount and burden placed on taxpayers.
