

A reliable ride for Dutchess County seniors

GoGoGrandparent
(GoGo, for short)

On-demand ride-sharing for Dutchess County older adults (60+)

Where can GoGo be used? GoGo is available wherever Uber/Lyft drivers operate in Dutchess County. Rides can be scheduled for appointments within Dutchess County.

How soon can I GoGo? GoGo drivers require a minimum one hour's notice.

Who's eligible? GoGo serves Dutchess County older adults who are not eligible for medical transportation via Medicaid, and have no other means of transportation to and from non-emergency appointments or outpatient procedures after which driving is not recommended.

What does it cost? OFA and GoGo are providing a limited number of free, non-emergency medical trips within Dutchess County for qualifying Dutchess County older adults.

I don't have a mobile phone: GoGo works with both home phones and mobile devices.

How To Order The First GoGo Ride

Register for GoGo by calling the Office for the Aging during business hours:

845-486-2555

GoGo will need to know the client's name, street address (with apartment number if necessary), and phone number, along with the contact information of a family member or caregiver who can be notified whenever the client is using GoGo. If special accommodations are needed (like a wheelchair, walker, service animal and/or portable oxygen) the client should inform OFA when registering.
