To: All Legislators of the Dutchess County Legislature

From: Mei Ying So & Timothy Buzinski  
Co-owners of Artisan Wine Shop, Beacon

We strongly support legislation to expand hours of operation for wine & liquor stores from the current 7:00pm to the proposed 9:00pm.

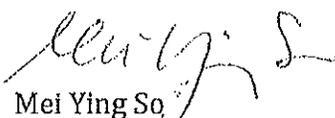

We opened our wine shop on Main Street in Beacon nearly thirteen years ago. The current regulation has caused – and continues to cause – significant lost revenues in the years we've been open, hundreds of thousands of dollars thus far. That revenue could have supported more jobs, contributing payroll taxes – at the same time, helping us have more time off. Without a doubt, the current regulation stunts economic growth in the county.

The effects of this early closing hour are even more negative for thousands of consumers. We constantly turn away customers literally knocking on our door at 7:05pm. We have to explain to them that in Dutchess County, adults are not allowed to purchase wine and spirits in a store after 7:00pm. But if they would like, they have a few options: 1) they are allowed to purchase beer in a store until **4:00am** in Dutchess County, 2) they can go to a bar in Dutchess County until **4:00am**, have them open the bottle of wine, pour some out, and re-close the bottle to take home at 3 times the price, or 3) they can take a 15-minute drive over to Putnam or Orange counties where the closing hour for wine and spirits stores is **Midnight!** None of these options appeal to some of these customers we have just lost – they don't blame us, but there are any number of understandable reasons that they are frustrated. We are constantly being forced to engage with our customers in a negative way. Turning away a customer is hard; we feel bad that we can't help them when our business model is based on the question, "How can we help you?"

The consumer really loses out with the current regulation. These are residents who want to patronize their local shop in their community. They want their sales taxes to go to Dutchess County, and not to Putnam or Orange or New York City (many of our customers are commuters and can't make it back to Beacon in time). This makes their busy lives even harder by not allowing them the choice to run their wine errand after 7:00pm. The visitor population has also been increasing; the word "astounded" doesn't begin to describe their reaction. Perhaps at one time this 7:00pm regulation made sense, but it is no longer relevant to present day life.

We are a small neighborhood shop, one of many Main Street businesses that are an integral part of Beacon. We, and most of our staff, live in Beacon. We believe the effects of this resolution will be only positive, for consumers and for economic growth in Dutchess County.

Thank you for your time and attention. We're submitting to the Legislature 817 signatures in support, collected in Beacon alone (746 of them are Dutchess County residents), from residents and visitors, all of them consumers and taxpayers.
