Subject: RE: Budget, Finance, and Personnel Committee Meeting Question

The position will be created this budget year as a temp hired before the end of the year and included as an authorized position in the 2020 proposed budget.

For the purpose of civil service classification, all new positions are automatically created in the Competitive class and can only be removed with approval from the NYS Civil Service Commission. This position will be internally designated as "PJC" (pending jurisdictional classification) as we go through the process of petitioning the State to have it removed from the Competitive class. We anticipate requesting the position be designated as "Non-Competitive Policy Influencing". If the State were to deny the request, the position classification would be changed to Competitive and an exam ordered.

Subject: Budget, Finance, and Personnel Committee Meeting Question

Good morning,

During the Legislature's Budget, Finance, and Personnel Committee meeting Legislator Edwards was seeking clarification on the position of Assistant Commissioner for Youth Services. Legislator Edwards asked if the position is temporary or permanent as well as clarification on the position class.

Thank you,

Laura Hussing
