RESOLUTION NO. 2013036

BOND RESOLUTION DATED MARCH 11, 2013.

A RESOLUTION AUTHORIZING THE ISSUANCE OF \$960,000 SERIAL BONDS OF THE COUNTY OF DUTCHESS, NEW YORK, TO PAY THE COST OF THE ACQUISITION AND IMPLEMENTATION OF AN ENTERPRISE CONTENT MANAGEMENT SYSTEM, IN AND FOR SAID COUNTY.

WHEREAS, all conditions precedent to the financing of the capital project hereinafter described, including compliance with the provisions of the State Environmental Quality Review Act as a Type II Action, have been performed; and

WHEREAS, it is now desired to authorize the financing of such capital project; NOW,  
THEREFORE

BE IT RESOLVED, by the County Legislature of the County of Dutchess, New York, as follows:

Section 1. The acquisition and implementation of an Enterprise Content Management System, in and for the County of Dutchess, New York, including computer hardware and software, original equipment and incidental improvements and expenses in connection therewith, is hereby authorized at a maximum estimated cost of \$960,000.

Section 2. It is hereby determined that the plan for the financing of the aforesaid maximum estimated cost is by the issuance of \$960,000 serial bonds of said County hereby authorized to be issued therefor pursuant to the provisions of the Local Finance Law.

Section 3. It is hereby determined that the period of probable usefulness of the aforesaid specific object or purpose is five years, pursuant to subdivision 32 of paragraph a of Section 11.00 of the Local Finance Law.

Section 4. The faith and credit of said County of Dutchess, New York, are hereby irrevocably pledged for the payment of the principal of and interest on such bonds as the same respectively become due and payable. An annual appropriation shall be made in each year sufficient to pay the principal of and interest on such bonds becoming due and payable in such year. There shall annually be levied on all the taxable real property of said County a tax sufficient to pay the principal of and interest on such bonds as the same become due and payable.

Section 5. Subject to the provisions of the Local Finance Law, the power to authorize the issuance of and to sell bond anticipation notes in anticipation of the issuance and sale of the serial bonds herein authorized, including renewals of such notes, is hereby delegated to the Commissioner of Finance, the chief fiscal officer. Such notes shall be of such terms, form and contents, and shall be sold in such manner, as may be prescribed by said Commissioner of Finance, consistent with the provisions of the Local Finance Law.

Section 6. The powers and duties of advertising such bonds for sale, conducting the sale and awarding the bonds, are hereby delegated to the Commissioner of Finance, who shall advertise such bonds for sale, conduct the sale, and award the bonds in such manner as she shall deem best for the interests of the County; provided, however, that in the exercise of these delegated powers, she shall comply fully with the provisions of the Local Finance Law and any order or rule of the State Comptroller applicable to the sale of municipal bonds. The receipt of the Commissioner of Finance shall be a full acquittance to the purchaser of such bonds, who shall not be obliged to see to the application of the purchase money.

Section 7. All other matters, except as provided herein relating to such bonds including determining whether to issue such bonds having substantially level or declining annual debt service and all matters related thereto, prescribing whether manual or facsimile signatures shall appear on

said bonds, prescribing the method for the recording of ownership of said bonds, appointing the fiscal agent or agents for said bonds, providing for the printing and delivery of said bonds (and if said bonds are to be executed in the name of the County by the facsimile signature of the Commissioner of Finance, providing for the manual countersignature of a fiscal agent or of a designated official of the County), the date, denominations, maturities and interest payment dates, place or places of payment, and also including the consolidation with other issues, shall be determined by the Commissioner of Finance. It is hereby determined that it is to the financial advantage of the County not to impose and collect from registered owners of such serial bonds any charges for mailing, shipping and insuring bonds transferred or exchanged by the fiscal agent, and, accordingly, pursuant to paragraph c of Section 70.00 of the Local Finance Law, no such charges shall be so collected by the fiscal agent. Such bonds shall contain substantially the recital of validity clause provided for in section 52.00 of the Local Finance Law and shall otherwise be in such form and contain such recitals in addition to those required by section 52.00 of the Local Finance Law, as the Commissioner of Finance shall determine.

Section 8. This resolution shall constitute a statement of official intent for purposes of Treasury Regulations Section 1.150 - 2. Other than as specified in this resolution, no monies are, or are reasonably expected to be, reserved, allocated on a long-term basis, or otherwise set aside with respect to the permanent funding of the object or purpose described herein.

Section 9. The validity of such bonds and bond anticipation notes may be contested only if:

MEMORANDUM

RE: Dutchess Stadium Improvements

DATE: February 01, 2013

DUTCHESS COUNTY  
EXECUTIVE  
RECEIVED  
2013 JAN 32 AM 9:08

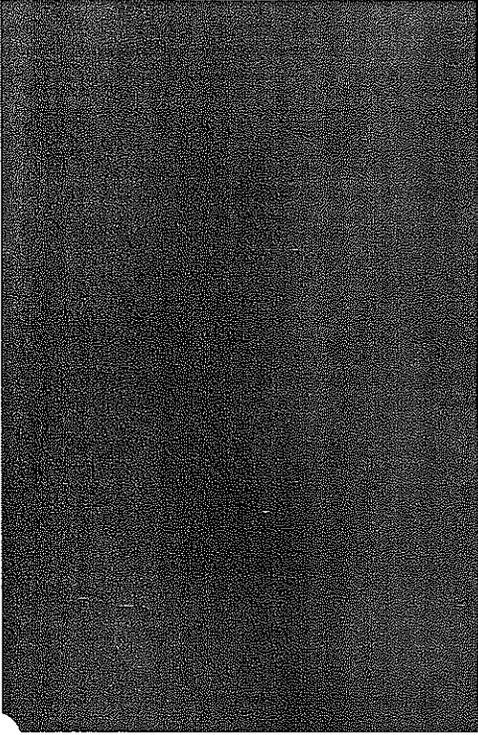

Opened in 1994, Dutchess Stadium is entering its 20<sup>th</sup> year. The stadium is in need of some significant upgrades and repairs. The natural turf playing field is in poor condition, due to inadequate surface drainage and a failed sub-surface drainage system. The electrical service to the stadium is no longer sufficient to deliver the necessary power required for large events such as concerts. The stadium structure itself required extensive upgrades to the electrical system in order to provide safe electrical power to the many food and merchandise vendors that operate during games or other events.

Without these important upgrades and improvements, the stadium will not be utilized to its full potential and that translates into the county not realizing all of its revenue potential at Dutchess Stadium.

The artificial turf field replacement project is expected to cost approximately \$1.1M dollars, including construction and soft costs (design services, inspection services, permitting, etc.) Electrical upgrades and repairs are expected to cost approximately \$200,000. This work will include an upgrade to Central Hudson's electric service that feeds the entire facility, as well as repairs and upgrades to the electrical system within the stadium building itself.

While this bond request is listed at \$1M, previously authorized capital funding (Capital Project H0372; Resolution No. 206327) will be utilized to complete the requested improvements. In addition to the field improvement work, Project H0372 listed other specific improvements at the stadium including a new entry sign and Clubhouse drainage improvements. It is the Department's intent to undertake these projects during 2013.

Please do not hesitate to contact me at ext. 2121 with any questions concerning this request. Thank you for your consideration.

# DUTCHESS STADIUM

A Dutchess County Park

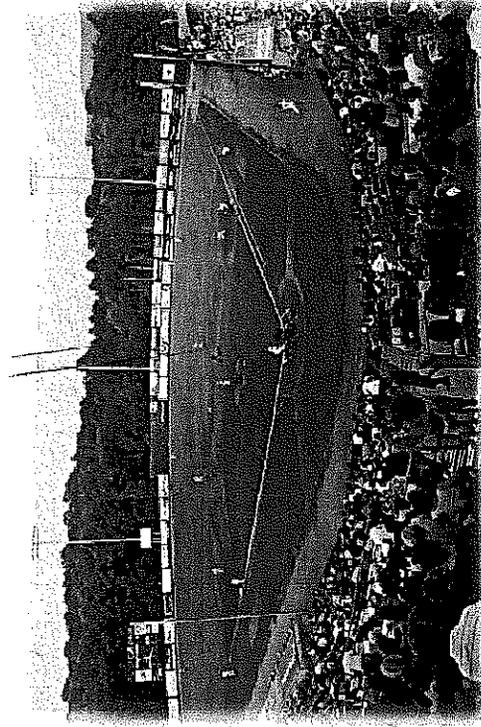

---

## Overview:

2013 will mark the 20<sup>th</sup> year of operation for Dutchess Stadium. During their first month of play, the Hudson Valley Renegades will welcome the 3,000,000<sup>th</sup> fan to attend a professional ballgame in the venue. The bond forged over the past two decades between the Renegades and the surrounding area is extremely strong, with consistently high attendance coupled with industry leading community involvement.

Dutchess Stadium is currently the 11<sup>th</sup> oldest park out of the 14 operating stadia in the New York-Penn. League. Nevertheless, Hudson Valley continues to place in the top quarter of the League in annual attendance while Dutchess Stadium hosts more total events than most competing facilities. The baseball operation, dedicated special events department, community outreach programs, and other more finely focused efforts have transitioned what was built to house a seasonal business into a virtual year-round destination venue.

The combination of an aging ballpark with continued growth in usage presents increasing challenges and difficulties if left without significant investment in this community owned facility. Dutchess Stadium not only will fall beneath certain requirements of professional baseball, but also will become a much less attractive host to both its tenant and potential events-specifically in light of the accessibility of newer and more updated facilities in surrounding counties.

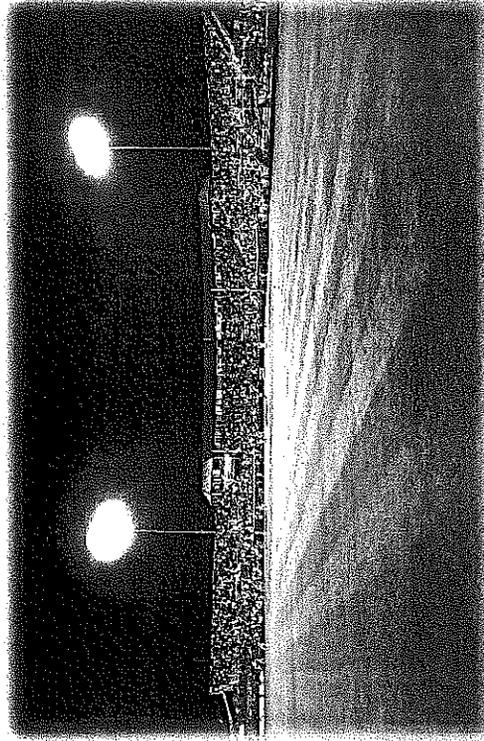

## Dutchess Stadium

It is important to recognize the differences in both short and long term needs for Dutchess Stadium. Typical and general maintenance- the amount needed to simply maintain the operation and safety of the park- has often been funded with a percentage of the general Parks operating budget as opposed to a critical examination of the current and anticipated costs of intermediate and longer term sustainability. If these budget allocations continue to poorly reflect the demands of a rapidly aging infrastructure, the potential for a white elephant increases dramatically.

As a 20 year old structure, Dutchess Stadium lags behind the vast majority of regionally successful stadia in the Northeast. While unrealistic to expect it to include many of the features of some of the newer parks, including those in neighboring Rockland County, capital investments that are relatively modest in comparison will result in a greatly improved facility.

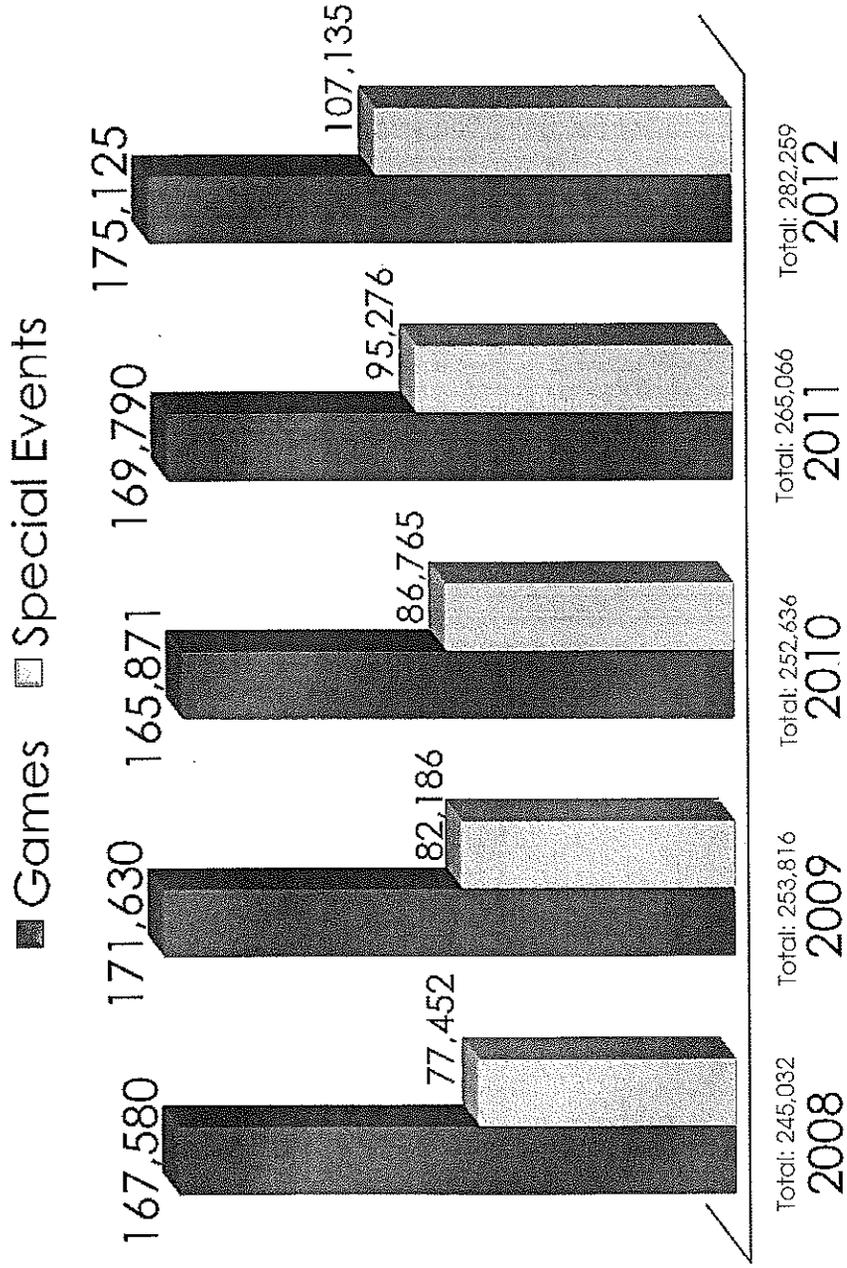

The attached report illustrates the current economic benefits the Hudson Valley Renegades and the management of Dutchess Stadium provide to Dutchess County.

Hi Carolyn (and Alison). Below is the response from Finance re: Dutchess Stadium "outstanding bonds".

The original bond to fund the construction of the Stadium was paid off in 2008. In 2006, Resolution 206327 was adopted which included \$1.5 million for improvements at Dutchess Stadium. There is \$634,018.35 remaining in this capital project line to spend on "Stadium improvements". The bond request before the Legislature now is not enough to cover the costs for field replacement, electrical upgrades and other required Stadium maintenance/repairs so the money currently in the capital project line will be used to pay the difference.

Best, Mike
