

Halloween COVID-19 Safety Guidelines

Trick-or-Treaters

- If you feel sick, please stay home
- Only trick-or-treat with people you live with
- Stay 6 feet away from people you don't know
- Don't touch your face, nose, or mouth
- Don't wear a costume mask unless you have a snug-fitting proper face covering underneath it and can breathe easily
- Use hand sanitizer often
- Before eating your candy, wash your hands

Homeowners

- If you feel sick, please don't hand out candy
- Wear a face covering when you answer the door
- Wash your hands with soap and water or use hand sanitizer before handing out candy
- If you don't feel safe handing out candy, you can leave it in a bowl or turn off your lights
- Mark off 6-foot lines leading to your front door
- Instead of handing out candy, consider holding a drive-by Halloween parade or leaving candy outside on a disinfected table

Parents

- If you feel sick, please stay home
- Talk to your children about safety and social distancing
- Bring a flashlight if you'll be out after dark
- Encourage friends to hold drive-by events in lieu of trick-or-treating
- Ensure proper distancing as children walk
- Wash your hands as soon as you return home
- Make sure children unwrap candy then wash their hands before eating it

Halloween Parties

- Instead of hosting a party, consider holding a drive-by Halloween parade
- If you host an in-person party:
 - Limit guests to small groups of family and friends; parties must be limited to 50 people
 - Don't let attendees take part if they have COVID-19 symptoms or have been exposed to someone with COVID-19 within 2 weeks
 - Wear a face covering that covers your mouth and nose
 - Ask guests to physically distance 6 feet apart
 - Clean and disinfect frequently touched surfaces before and after the party
