

Help Your Family in an Emergency or Disease Outbreak

Dutchess County Executive William R. Steinhaus says:
Be AWARE!
Be PREPARED!
Learn MORE!

Know what has happened and what to do!

Stay informed

Know who to call for help

Know what to do if someone is hurt or sick

Have these ready:

Flashlight with batteries

First aid kit

Lots of water

2-week supply of ready-to-eat food

Matches

Cash

Items to keep in your home for emergency use:

Food and water

Keep a supply of canned and dried food and fresh water on hand, enough for several days. There may be disruptions in some basic utility services such as electricity and water. Grocery stores may not be able to open.

Items for personal comfort

You may wish to have extra items on hand to make your time at home more comfortable such as soap, shampoo, toothpaste, toilet paper, cleaners and activities for children.

Cash

Make sure to have some cash on hand. If there are power outages, ATMs will not work.

Pets

Don't forget your pets. Make sure you have enough food and water for them and other necessities like extra litter.

Phone

If there are disruptions to power, you will need a standard "wired" phone - one that does not run on power from an electrical outlet. Cordless phones will not operate when the power is out. Cellular phones may work if cellular towers are functioning and cellular phone battery is charged.

Medications

If you must take medications on a regular basis, be sure to have enough of a supply to last for several days.

Large trash bags

Garbage service may be disrupted or postponed. Have bags on hand to store garbage safely.

We encourage residents to stock at least a two-week supply, preferably a three-week supply, of essential household items. For more information on how you can prepare, please visit our County government website at www.dutchessny.gov - Also, look for our ad next week which will have a list of "Items to have on hand for an extended stay at home."
