Dana opened the meeting by praising this group for all of the hard work and hours put into this project. David Gavin and Bill Yellin were also praised.

Dave Violante did a presentation on Town by Town Infographics (attached). There was discussion on some items that should be added to this, such as the following:

- Change map to show actual routes (maybe with times as well)
- Need to track Union Vale/Roosevelts process
- Track RMA

There was also discussion about different back in service times.

Dave requested to send in requests ASAP so data doesn't need to keep being redone.

Chris Rohrbach and Dan Nichols did a presentation on EMS Goals/Response Times (attached) which was followed by a short discussion.

Dana then discussed this committee's next moves. He stated he will send out a group of planning assumptions (statements of fact). The group does not think this project will be complete by the end of 2016. Dana asked what everyone's thoughts are to possibly hire a consultant. We will have to have something prepared for the County Executive to present to him by the end of September so we can add funding for this to our budget if necessary.

Consultants-and the need of one- were discussed. Possible funding streams for consultants were also mentioned.

The next meeting will be held Wednesday September 7th at 5:30 pm.

Respectfully submitted,

Laurie Colgan
