

Dutchess County 2026 CDBG Eligible Areas¹

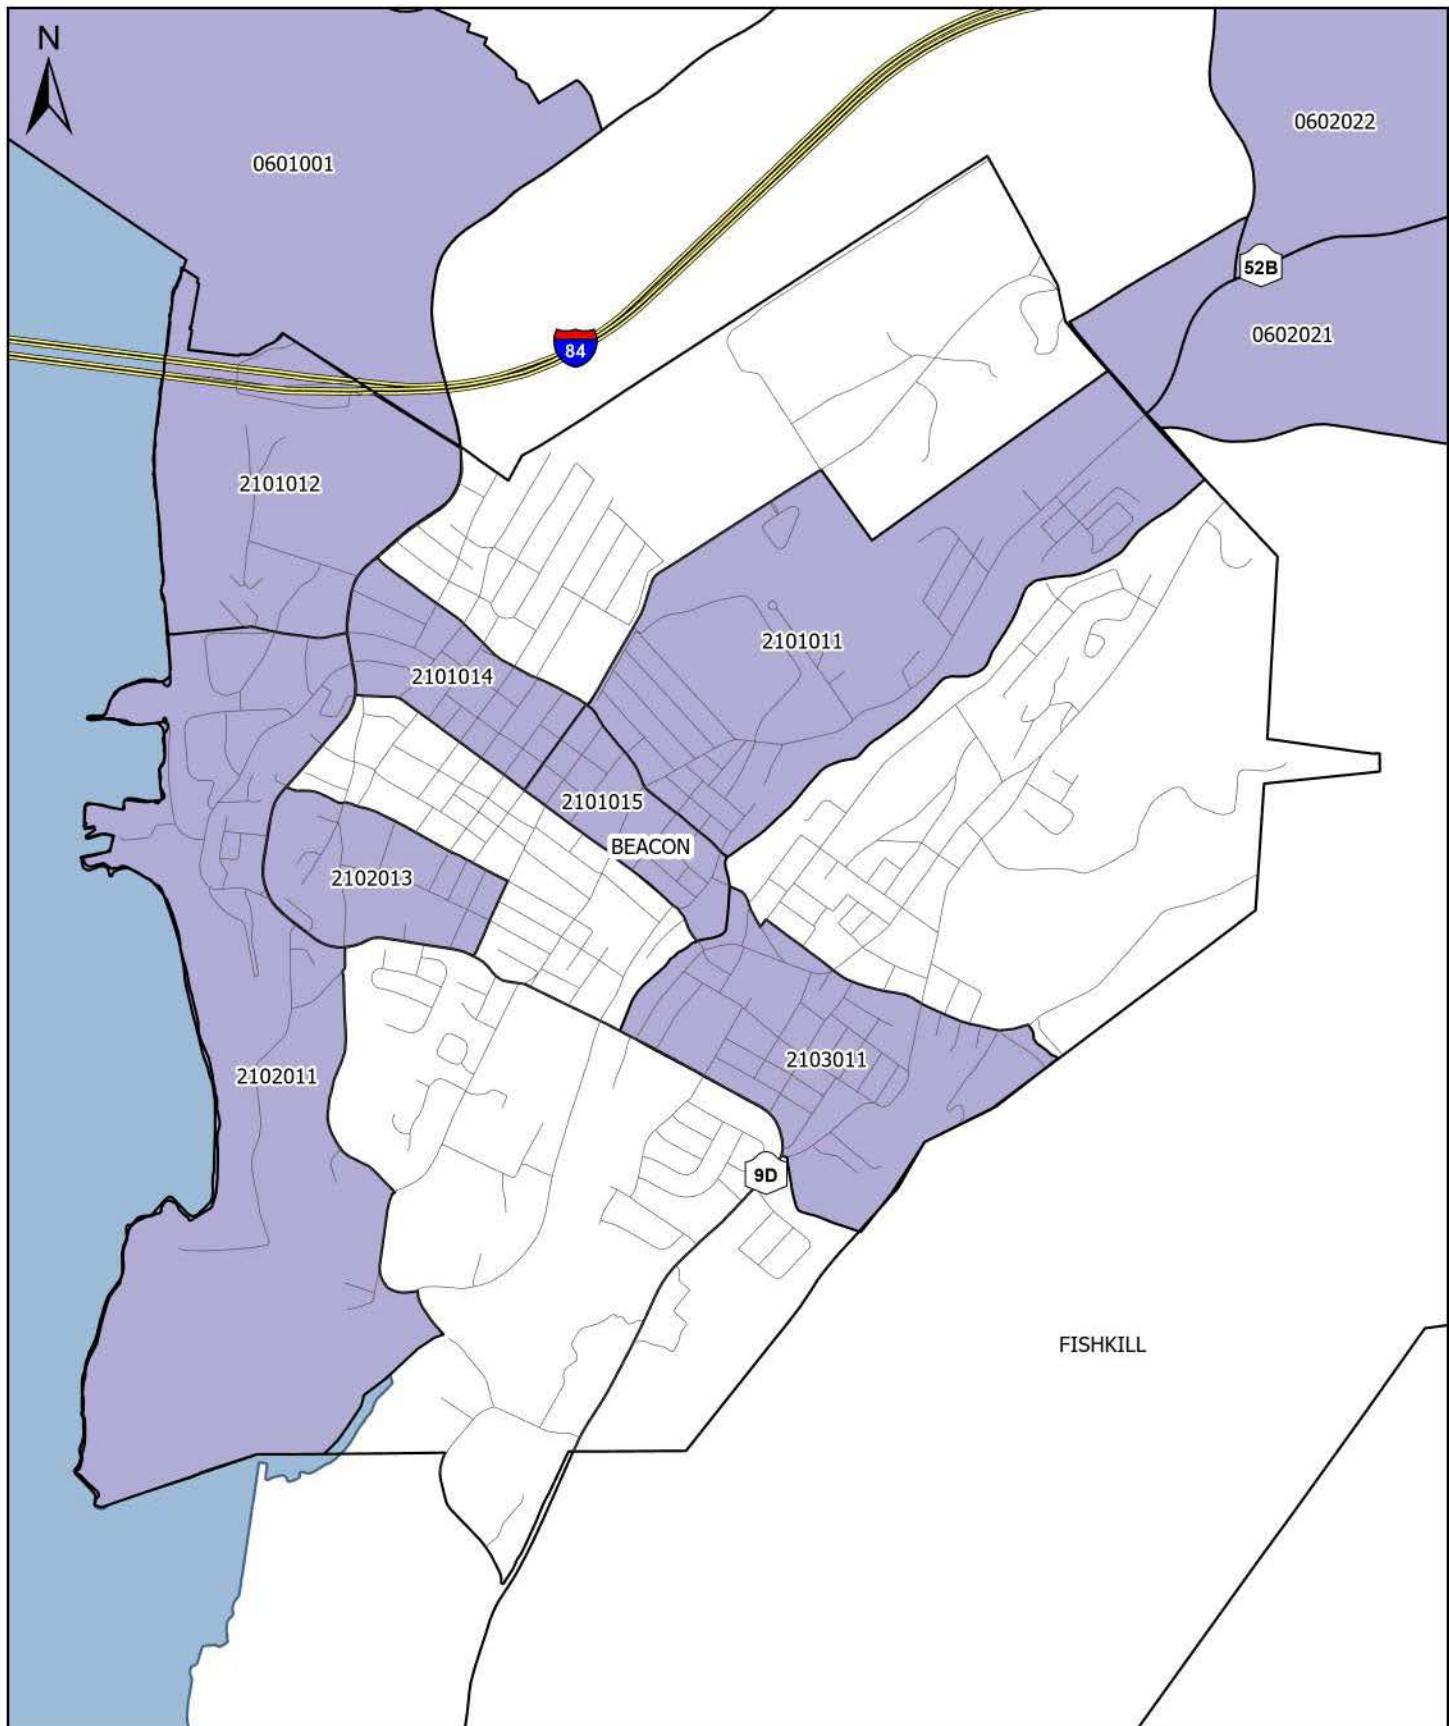

1 - This map depicts block groups in Dutchess County where a majority of residents are low-to-moderate income. Projects in these areas may be eligible for CDBG funding under the L/M Income Area Benefit (LMA) national objective. However, LMA is not the only way to qualify a project. Projects outside of the purple-shaded areas may also qualify by meeting a different national objective, such as L/M Limited Clientele (LMC), serving residents whom HUD presumes are low-to-moderate income; L/M Housing (LMH), serving income-qualified residents with housing assistance; and L/M Jobs (LMJ), serving income-qualified residents with job assistance. Please speak with Dutchess County Planning & Community Development staff if you have questions about the eligibility of a project.
