SELECTED SOCIAL CHARACTERISTICS IN THE UNITED STATES

2006-2010 American Community Survey 5-Year Estimates

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Data and Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, for 2010, the 2010 Census provides the official counts of the population and housing units for the nation, states, counties, cities and towns. For 2006 to 2009, the Population Estimates Program provides intercensal estimates of the population for the nation, states, and counties.

Subject	Clinton town, Dutchess County, New York			
	Estimate	Estimate Margin of Error	Percent	Percent Margin of Error
HOUSEHOLDS BY TYPE				
Total households	1,649	+/-136	1,649	(X)
Family households (families)	1,274	+/-117	77.3%	+/-7.0
With own children under 18 years	498	+/-74	30.2%	+/-5.0
Married-couple family	1,098	+/-128	66.6%	+/-8.3
With own children under 18 years	378	+/-94	22.9%	+/-6.3
Male householder, no wife present, family	95	+/-77	5.8%	+/-4.7
With own children under 18 years	81	+/-75	4.9%	+/-4.5
Female householder, no husband present, family	81	+/-45	4.9%	+/-2.7
With own children under 18 years	39	+/-27	2.4%	+/-1.7
Nonfamily households	375	+/-132	22.7%	+/-7.0
Householder living alone	275	+/-118	16.7%	+/-6.4
65 years and over	119	+/-75	7.2%	+/-4.3
Households with one or more people under 18 years	527	+/-73	32.0%	+/-4.9
Households with one or more people 65 years and over	356	+/-85	21.6%	+/-4.4
Average household size	2.52	+/-0.15	(X)	(X)
Average family size	2.81	+/-0.18	(X)	(X)
RELATIONSHIP				
Population in households	4,151	+/-224	4,151	(X)
Householder	1,649	+/-136	39.7%	+/-2.3
Spouse	1,095	+/-130	26.4%	+/-2.8
Child	1,157	+/-151	27.9%	+/-3.4
Other relatives	59	+/-43	1.4%	+/-1.0
Nonrelatives	191	+/-88	4.6%	+/-2.1
Unmarried partner	170	+/-79	4.1%	+/-1.9
MARITAL STATUS				
Males 15 years and over	1,829	+/-129	1,829	(X)
Never married	472	+/-150	25.8%	+/-7.1
Now married, except separated	1,165	+/-124	63.7%	+/-7.7
Separated	9	+/-14	0.5%	+/-0.8
Widowed	8	+/-14	0.4%	+/-0.8
Divorced	175	+/-103	9.6%	+/-5.6
Females 15 years and over	1,693	+/-130	1,693	(X)

Subject	Clinton town, Dutchess County, New York			
	Estimate	Estimate Margin of Error	Percent	Percent Margin of Error
Never married	334	+/-86	19.7%	+/-4.4
Now married, except separated	1,082	+/-129	63.9%	+/-7.3
Separated	0	+/-123	0.0%	+/-2.0
Widowed	97	+/-58	5.7%	+/-3.4
Divorced	180	+/-84	10.6%	+/-4.7
FERTILITY				
Number of women 15 to 50 years old who had a birth in the past 12 months	48	+/-39	48	(X)
Unmarried women (widowed, divorced, and never married)	9	+/-14	18.8%	+/-29.7
Per 1,000 unmarried women	22	+/-34	(X)	(X)
Per 1,000 women 15 to 50 years old	51	+/-41	(X)	(X)
Per 1,000 women 15 to 19 years old	0	+/-191	(X)	(X)
Per 1,000 women 20 to 34 years old	110	+/-118	(X)	(X)
Per 1,000 women 35 to 50 years old	47	+/-54	(X)	(X)
GRANDPARENTS				
Number of grandparents living with own grandchildren under 18 years	9	+/-15	9	(X)
Responsible for grandchildren	9	+/-15	100.0%	+/-100.0
Years responsible for grandchildren				
Less than 1 year	0	+/-123	0.0%	+/-100.0
1 or 2 years	0	+/-123	0.0%	+/-100.0
3 or 4 years	0	+/-123	0.0%	+/-100.0
5 or more years	9	+/-15	100.0%	+/-100.0
Number of grandparents responsible for own grandchildren under 18 years	9	+/-15	9	(X)
Who are female	9	+/-15	100.0%	+/-100.0
Who are married	0	+/-123	0.0%	+/-100.0
SCHOOL ENROLLMENT				
Population 3 years and over enrolled in school	1,079	+/-172	1,079	(X)
Nursery school, preschool	39	+/-47	3.6%	+/-4.3
Kindergarten	9	+/-15	0.8%	+/-1.4
Elementary school (grades 1-8)	523	+/-165	48.5%	+/-11.2
High school (grades 9-12)	258	+/-74	23.9%	+/-7.3
College or graduate school	250	+/-89	23.2%	+/-7.7
EDUCATIONAL ATTAINMENT				
Population 25 years and over	3,103	+/-156	3,103	(X)
Less than 9th grade	50	+/-44	1.6%	+/-1.4
9th to 12th grade, no diploma	63	+/-47	2.0%	+/-1.5
High school graduate (includes equivalency)	726	+/-210	23.4%	+/-6.6
Some college, no degree	456	+/-127	14.7%	+/-4.3
Associate's degree	318	+/-123	10.2%	+/-4.0
Bachelor's degree	782	+/-171	25.2%	+/-5.2
Graduate or professional degree	708	+/-144	22.8%	+/-4.5
Percent high school graduate or higher	(X)	(X)	96.4%	+/-2.5
Percent bachelor's degree or higher	(X)	(X)	48.0%	+/-6.7
VETERAN STATUS				
Civilian population 18 years and over	3,329	+/-164	3,329	(X)
Civilian veterans	366	+/-105	11.0%	+/-3.1
DISABILITY STATUS OF THE CIVILIAN NONINSTITUTIONALIZED POPULATION				
Total Civilian Noninstitutionalized Population	(X)	(X)	(X)	(X)
With a disability	(X)	(X)	(X)	(X)
Under 18 years	(X)	(X)	(X)	(X)

Welsh	43	+/-46	1.0%	+/-1.1
West Indian (excluding Hispanic origin groups)	0	+/-123	0.0%	+/-0.8

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

While the 2006-2010 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Source: U.S. Census Bureau, 2006-2010 American Community Survey

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

There were changes in the edit between 2009 and 2010 regarding Supplemental Security Income (SSI) and Social Security. The changes in the edit loosened restrictions on disability requirements for receipt of SSI resulting in an increase in the total number of SSI recipients in the American Community Survey. The changes also loosened restrictions on possible reported monthly amounts in Social Security income resulting in higher Social Security aggregate amounts. These results more closely match administrative counts compiled by the Social Security Administration.

Workers include members of the Armed Forces and civilians who were at work last week.

Industry codes are 4-digit codes and are based on the North American Industry Classification System 2007. The Industry categories adhere to the guidelines issued in Clarification Memorandum No. 2, "NAICS Alternate Aggregation Structure for Use By U.S. Statistical Agencies," issued by the Office of Management and Budget.

Occupation codes are 4-digit codes and are based on the Standard Occupational Classification (SOC) 2010. The 2010 Census occupation codes were updated in accordance with the 2010 revision of the SOC. To allow for the creation of 2006-2010 and 2008-2010 tables, occupation data in the multiyear files (2006-2010 and 2008-2010) were recoded to 2010 Census occupation codes. We recommend using caution when comparing data coded using 2010 Census occupation codes with data coded using previous Census occupation codes. For more information on the Census occupation code changes, please visit our website at <http://www.census.gov/hhes/www/oiindex/>.

While the 2006-2010 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Source: U.S. Census Bureau, 2006-2010 American Community Survey

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

The median gross rent excludes no cash renters.

In prior years, the universe included all owner-occupied units with a mortgage. It is now restricted to include only those units where SMOCAPI is computed, that is, SMOC and household income are valid values.

In prior years, the universe included all owner-occupied units without a mortgage. It is now restricted to include only those units where SMOCAPI is computed, that is, SMOC and household income are valid values.

In prior years, the universe included all renter-occupied units. It is now restricted to include only those units where GRAPI is computed, that is, gross rent and household Income are valid values.

The 2009 and 2010 plumbing data for Puerto Rico will not be shown. Research indicates that the questions on plumbing facilities that were introduced in 2008 in the stateside American Community Survey and the 2008 Puerto Rico Community Survey may not have been appropriate for Puerto Rico.

While the 2006-2010 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

	Estimate	Estimate Margin of Error	Percent	Percent Margin of Error
Black or African American	81	+/-92	1.9%	+/-2.1
American Indian and Alaska Native	0	+/-123	0.0%	+/-0.8
Cherokee tribal grouping	0	+/-123	0.0%	+/-0.8
Chippewa tribal grouping	0	+/-123	0.0%	+/-0.8
Navajo tribal grouping	0	+/-123	0.0%	+/-0.8
Sioux tribal grouping	0	+/-123	0.0%	+/-0.8
Asian	93	+/-73	2.2%	+/-1.7
Asian Indian	0	+/-123	0.0%	+/-0.8
Chinese	31	+/-41	0.7%	+/-0.9
Filipino	10	+/-17	0.2%	+/-0.4
Japanese	0	+/-123	0.0%	+/-0.8
Korean	11	+/-18	0.3%	+/-0.4
Vietnamese	0	+/-123	0.0%	+/-0.8
Other Asian	41	+/-52	1.0%	+/-1.2
Native Hawaiian and Other Pacific Islander	0	+/-123	0.0%	+/-0.8
Native Hawaiian	0	+/-123	0.0%	+/-0.8
Guamanian or Chamorro	0	+/-123	0.0%	+/-0.8
Samoa	0	+/-123	0.0%	+/-0.8
Other Pacific Islander	0	+/-123	0.0%	+/-0.8
Some other race	21	+/-36	0.5%	+/-0.8
Two or more races	41	+/-37	1.0%	+/-0.9
White and Black or African American	21	+/-29	0.5%	+/-0.7
White and American Indian and Alaska Native	11	+/-17	0.3%	+/-0.4
White and Asian	0	+/-123	0.0%	+/-0.8
Black or African American and American Indian and Alaska Native	5	+/-10	0.1%	+/-0.2
Race alone or in combination with one or more other races				
Total population	4,286	+/-17	4,286	(X)
White	4,086	+/-128	95.3%	+/-2.9
Black or African American	111	+/-104	2.6%	+/-2.4
American Indian and Alaska Native	16	+/-19	0.4%	+/-0.4
Asian	93	+/-73	2.2%	+/-1.7
Native Hawaiian and Other Pacific Islander	0	+/-123	0.0%	+/-0.8
Some other race	25	+/-37	0.6%	+/-0.9
HISPANIC OR LATINO AND RACE				
Total population	4,286	+/-17	4,286	(X)
Hispanic or Latino (of any race)	98	+/-77	2.3%	+/-1.8
Mexican	8	+/-12	0.2%	+/-0.3
Puerto Rican	41	+/-53	1.0%	+/-1.2
Cuban	0	+/-123	0.0%	+/-0.8
Other Hispanic or Latino	49	+/-44	1.1%	+/-1.0
Not Hispanic or Latino	4,188	+/-79	97.7%	+/-1.8
White alone	3,973	+/-149	92.7%	+/-3.4
Black or African American alone	81	+/-92	1.9%	+/-2.1
American Indian and Alaska Native alone	0	+/-123	0.0%	+/-0.8
Asian alone	93	+/-73	2.2%	+/-1.7
Native Hawaiian and Other Pacific Islander alone	0	+/-123	0.0%	+/-0.8
Some other race alone	0	+/-123	0.0%	+/-0.8
Two or more races	41	+/-37	1.0%	+/-0.9
Two races including Some other race	0	+/-123	0.0%	+/-0.8
Two races excluding Some other race, and Three or more races	41	+/-37	1.0%	+/-0.9
Total housing units	2,006	+/-187	(X)	(X)

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data).

The effect of nonsampling error is not represented in these tables.

For more information on understanding race and Hispanic origin data, please see the Census 2010 Brief entitled, Overview of Race and Hispanic Origin: 2010, issued March 2011. (pdf format)

The ACS questions on Hispanic origin and race were revised in 2008 to make them consistent with the Census 2010 question wording. Any changes in estimates for 2008 and beyond may be due to demographic changes, as well as factors including questionnaire changes, differences in ACS population controls, and methodological differences in the population estimates, and therefore should be used with caution. For a summary of questionnaire changes see http://www.census.gov/acs/www/methodology/questionnaire_changes/. For more information about changes in the estimates see <http://www.census.gov/population/www/socdemo/hispanic/reports.html>.

While the 2006-2010 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.
