Zoning Board of Appeals

Zoning map and districts

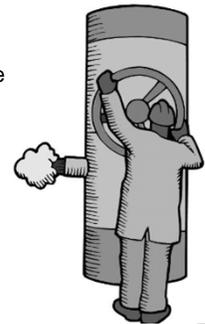

- Regulates use, density, and placement of structures on a parcel
- Each district generally has a list of bulk and area regulations, as of right, and special uses
- Original intent: Prevent fire hazards and other threats to health and safety

Zoning requires a safety valve

Municipalities with zoning must have a **zoning board of appeals**

ZBA is a “buffer” for aggrieved applicants between decisions of the zoning enforcement officer and the State supreme court

Interpretations

Definitions are important.

Without them, board must come to consensus on what they think term or regulation means.

- May only be made upon appeal of Enforcement Officers decision
- Appellant believes Enforcement Officer wrongly applied the law
- Common areas of interpretation:
 - Definitions
 - Method of taking measurements
 - Ordinary meaning of terms, if term is undefined
 - Past decisions on same regulations or similar facts

Two types of variances

- **Use variance:** to use land for a purpose not allowed in the zoning regulations
- **Area variance:** provides relief from dimensional requirements of zoning regulations

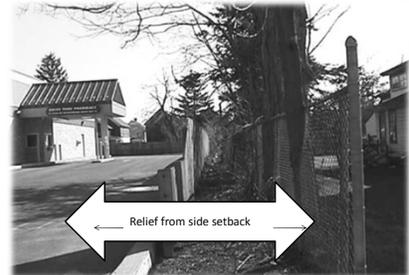

Use variance test

To use land for a purpose not allowed in the zoning regulations. Applicant must prove all four factors:

1. No reasonable return
2. Unique circumstances
3. No self-created hardship
4. No alteration to the essential character of neighborhood

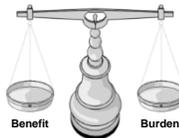

Area Variance

To use land in a way that varies from the dimensional requirements of zoning regulations

Area variance test

1. Change to neighborhood character
2. Alternatives not requiring a variance
3. Substantiality of the request
4. Effect on physical or environmental conditions
5. Self-created situation

Planning Board

Planning board

Advise local governing board on:

- Subdivision, site plan, other regulations
- Zoning changes
- Annual budgets or capital plans

Planning board

Subdivision

- Into lots, blocks or sites (with or without streets)
- For the purpose of sale, transfer of ownership, or development

- General City Law §32 & §33
- Town Law §276 & §277
- Village Law §7-728 & §7-730

Subdivision review procedures

- Public hearing required within 62 days of receiving complete application (including neg dec for SEQR or, if pos dec, draft EIS).
 - 5 day notice prior to hearing date
 - Public hearing may not be kept open for more than 120 days
 - Beware of default approval (if no decision made 62 days after close of public hearing)
- County referral under General Municipal Law 239-n if county has authorized and proposal is within 500 feet of a state or county highway or other trigger
- Parkland or money in lieu of parkland

Survey required by NYS licensed surveyor

Cluster or "conservation" subdivisions

- Allows flexible design and development, to preserve natural and scenic qualities of open lands
- Need specific authorization from governing board:
 - Can be allowed
 - Can be mandated
- Zoning identifies allowable:
 - Location by districts
 - Type of development

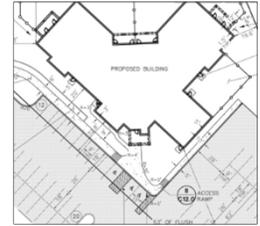

Site plan review

- Rendering, drawing, or sketch with project's proposed design and layout on a single parcel
- May apply to many uses, from single family home to shopping mall
- Must be in accordance with comprehensive plan
- Zoning not necessary to enact site plan review

Review elements

- Relationship to adjacent uses
- Location/dimensions of buildings
- Utilities: sewage & storm drainage
- Proposed grades and contours
- Screening and landscaping
- Parking, access
- Lighting, signage

Remember:
Municipality can add elements of review

Special Use Permit

- Use IS allowed by zoning IF it meets conditions associated with that use in the zoning
- Use will not adversely effect neighborhood if conditions are met
- Designed to assure that use is in harmony with surroundings

General City Law §27-b
Town Law §274-b
Village Law § 7-725-b

Not a use variance

Use Variance	Special Use Permit

Comprehensive Plan

Comprehensive plan purpose

- Statement of community vision : An expression of a municipality's goals and recommended action to achieve those goals.
- Provides strategies for achieving expressed goals, often in the form of new or revised land use regulations
- Serves as a framework and defense for land use regulations which focuses on immediate and long-term protection, enhancement, growth and development of the municipality.
- An outline for orderly growth, providing continued guidance for decision-making.

Comprehensive plan considerations

- Current land uses and regulations
- Growth patterns
- Infrastructure adequacy
- Economic development
- Housing
- Priorities for preservation

Preparation

- Governing board, planning board or special board, oversees preparation
- Public hearings must be held by both board preparing plan and governing board
- Governing board adopts plan and zoning amendments

Moratorium

Temporary suspension of development approvals, pending completion of more permanent regulations:

- May be enacted to gather information for and/or adopt a plan or new regulations
- Development that might occur without a moratorium could undermine the ultimate value of a plan in progress

Time periods:

- Fixed period of time, with a specified termination date
- No longer than reasonably necessary to adequately address the issues (generally not longer than 6 months)

Procedures: Planning Boards and Zoning Board of Appeals

State training requirements

Members of local planning boards, zoning boards of appeals and county planning boards

- At least four hours annually
- Excess hours carried over
- Necessary for reappointment
- Governing board approves training
- Requirements may be waived or modified
 - Resolution of governing board
 - Best interest of municipality
- Variety of sources & formats

Failure to comply does not void decisions

Board procedures

To be binding, board procedures must be adopted by governing board by local law or ordinance. They cover a variety of issues, including:

State Environmental Quality Review

To incorporate the consideration of environmental factors into an agency's decision making process at the earliest possible time

SEQR defines environment broadly as resources or characteristics that could be affected by an action, including:

- Land, air, water, minerals
- Flora, fauna
- Noise
- Features of historic or aesthetic significance
- Population patterns
- Community character

How SEQRA works

- Agency proposes action or receives application
- Action classified*
- Lead agency established
- Significance of action determined*
- Environmental Impact Statement (EIS), if needed
- Findings and agency decision*

***SEQRA process can conclude at any of these points**

Environmental Assessment Form (EAF)

- Part 1: Applicant completes
- Part 2 & 3 : Reviewing board completes
- Actions are classified to determine level of review needed to consider environmental impacts:
 - **Type I:** Presumes significant adverse environmental impact; likely to require an environmental impact statement (EIS) (SEQR continues)
 - **Type II:** No environmental impact (SEQR concludes)
 - **Unlisted:** Full or short environmental assessment form required. SEQR ends if negative declaration; EIS if positive declaration of environmental impacts

Open Meetings Law

- Public bodies (including planning boards and zoning boards of appeals) must discuss applications and other board business at meetings open to the public
- Allows the public to listen and observe, including agenda sessions and site visits if merits of application are discussed, except for attorney-client privilege and reasons to go into Executive Session.
- Provide meeting schedule to media, posted notices, schedule on municipal website
- Quorum of full membership needed to conduct business

Meetings: Notice and access

- Provide meeting schedule to press
- Post in conspicuous place
- Post on municipal website (5/12/09)
- Notice timeframe based on meeting scheduling:
 - More than one week prior, at least 72 hours (3 days)
 - Less than one week prior, to extent practicable
- 2/12/12: Make agenda and/or documents available prior to or at meeting (online if practicable)

Waiting to act

Planning boards and ZBAs cannot act until:

- Local board receives county planning agency's report
- or
- 30 days after county receives full statement

- After 30 days, if local board meets at least two days after receiving the county's referral, the local board is bound by it.
- Local board and county may agree to extend review period

Effect of county recommendation

If county recommends disapproval or approval with conditions, and local board wants to proceed without recommendations...

...it must have supermajority (majority plus one vote)

And explain in record reasons for acting contrary

Decisions

Must be based on a record

- Must be made within 62 days after hearings closed
- Minutes must contain record of each vote
- Include language of motion and any conditions passed
- Send copy of decision with findings to applicant and county if applicable

Boards should support their decisions with findings

- Findings consist of an analysis that applies law to facts, leading to conclusions
- Findings describe reasons for application's denial or approval; may also support why conditions were imposed

Enforcement

- Governing board authorizes CEO/ZEO to enforce approvals and conditions granted by planning and zoning boards
- Could be stated in zoning or other land use law, or statement of CEO/ZEO duties
- Require approval conditions be met to the extent practicable before issuing certificate of occupancy or completion

Article 78

Boards' decisions are not appealed to the ZBA or local governing board

- After board renders decision, one with "standing" can challenge that decision in State Supreme Court. **This action is known as an "Article 78"**
- Challenges must be made with 30 days from date decision was filed in municipal clerk's office
- Commencement shall stay all proceedings
- Court may reverse, affirm, wholly or partly, or may modify decision brought for review
