

Main Street - N/S Grand Intersection Reconstruction

Town of Poughkeepsie

Public Informational Meeting

Nov. 8, 2023, 6pm

Project Highlights

Existing Condition:

The existing intersection has a pre-timed traffic signal that causes traffic delays. Drivers bypass the signal through businesses creating hazards for pedestrians. The pavement is poor and the area is in need of aesthetic improvements.

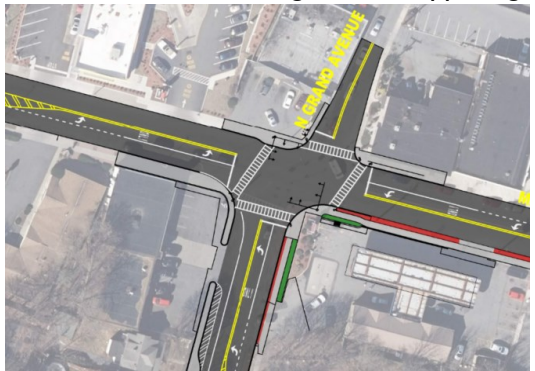

Proposed Alternatives:

Three Alternatives are currently under consideration:

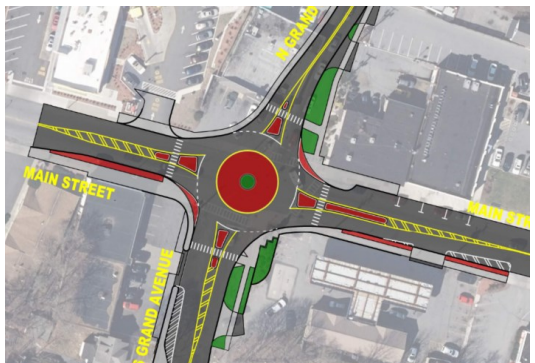

Alternative I - Traffic Signal with Median Island

Alternative II - Traffic Signal with Opposing Left Turn

Alternative III - Modern Roundabout

Project Goals:

- ◇ Improve pedestrian and vehicle traffic safety.
- ◇ Reduce traffic delay.
- ◇ Create a traffic calming gateway between Poughkeepsie city and Arlington.
- ◇ Provide ADA Compliant sidewalks, curb ramps and pedestrian signals.

Project Funding:

The project will be funded with County funds.

Design Standard:

The project is being designed using NYSDOT standards. In addition, the Public Rights-of-Way Accessibility Guidelines (PROWAG) must be strictly adhered to.

Schedule:

Construction is anticipated to begin in Fall 2026 and take approximately 12-18 months to complete.

Project Team:

Dutchess County:

Mohd Azher-Uddin, Assistant Civil Engineer I
mazher@dutchessny.gov
(845) 486-2925

HVEA Engineers:

(845) 838-3600
