

March Madness

March can be unpredictable, but if you start planning now, it won't have to be! Dutchess County has resources to help.

BEGIN ORGANIZING:

If you start organizing now, you're more likely to get rid of your things responsibly.

The County hosts 3 household hazardous waste and electronic recycling events per year to streamline it!

If you find textiles you no longer need, drop them off at one of the Helpsy bins in Dutchess County or see if your municipality offers free pick-up. They take any condition.

START YOUR SEEDLINGS:

March is a great time to start seedlings indoors before repotting them outside.

You can reuse egg cartons, yogurt cups, toilet paper rolls, plastic food trays, and more to avoid wasting useful materials.

Scan the QR code to download the Recycle Coach phone app, designed to help sort things out!
