Dutchess County Department of Public Works

From: Mark Debald, Transportation Program Administrator  
Dutchess County Transportation Council

Date: February 15, 2022

Subject: 2020 Pavement Condition Data: Federal-Aid Roads

The Dutchess County Transportation Council (DCTC) recently received 2020 pavement condition data from the New York State Department of Transportation (NYSDOT) for all federal-aid eligible roads in the county. We have mapped the data for the roads evaluated in each municipality (see attached). We hope that this data will be useful to you in prioritizing local paving work.

Since this data reflects 2020 conditions, it does not capture any 2021 pavement work. Also, only paved roads that are eligible for federal funds were evaluated. We are looking at ways to expand the monitoring program to evaluate all local roads, regardless of federal-aid eligibility.

If you have any questions or comments about the data or would like the GIS shapefile with more details, please contact DCTC at (845) 486-3600 or by email at dctc@dutchessny.gov.

Pavement Condition Maps
Pavement Score*

- **Poor** - Distress is frequent and severe.
- **Fair** - Surface distress is clearly visible.
- **Good/Excellent** - Surface distress beginning to show/no surface distress.

*Score is based on the severity and extent of cracking on the surface; data was collected in the northbound or eastbound direction only.
Pavement Score*
- Poor - Distress is frequent and severe.
- Fair - Surface distress is clearly visible.
- Good/Excellent - Surface distress beginning to show/no surface distress.

*Score is based on the severity and extent of cracking on the surface; data was collected in the northbound or eastbound direction only.
