Plan Overview

- Moving Dutchess Forward is DCTC’s 7th Long-Range Plan
- Strategic guiding document for improving transportation in Dutchess County over the next 25 years
- Goals and priorities, supported by policy and project recommendations
1. Prepare a transportation system that can anticipate and adapt to changes in the population, economy, technology, climate, and travel behavior.

2. Provide safe and convenient access for all people to housing, jobs, education, goods, services, and recreational amenities, regardless of age, ability, race, income, location, or mode of transportation.

3. Promote smart transportation and land use policies at the regional, county, and local level to support economic development and environmental preservation.

4. Make transformative investments in our regional transportation system while maintaining fiscal constraint and leveraging private investment.
