

**Attention Tivoli Sewer Customers and Residents,**

The Dutchess County Water and Wastewater Authority (DCWWA) will be commencing the project to reconstruct the wastewater treatment plant and upgrade the pump station. This work is being performed to comply with a New York State Department of Environmental Conservation consent order (NYSDEC Case No. R3-20201019-115) and will address aging/failing infrastructure and associated treatment issues.

**Here is the most up-to-date information on the Project's progress:**

**The design is complete.**

**Contractors will be selected in early summer 2024.**

**Work is expected to start in late summer/fall 2024 and continue through fall 2026.**

**The details of the Project are as follows:**

**Where** – The work will occur in specific areas:

- 26 Public Works Drive (Wastewater Treatment Plant)
- 103 Montgomery Street (temporary fenced contractor area for trailers/vehicle parking/equipment and material storage). See Map A (attached).
- 101 Broadway (Pump Station) and adjacent Village parking lot. See Map B (attached).

**Contractors** – DCWWA will hire a general contractor as well as electrical, plumbing, and HVAC contractors to perform the work. We will also be hiring a construction administration (CA) firm to act as the DCWWA's field representative during the project.

Construction Progress Updates will be provided via the DCWWA's Alerts and Advisory Page via [www.DCWWA.org](http://www.DCWWA.org).

Unless there is an emergency or other unforeseen event, project work should typically occur from 7:00 am to 5:00 pm, Monday to Friday. During this time, travel along public private roads serving your community may occasionally be impacted as the Contractor delivers equipment and materials to the project locations. We apologize in advance for the inconvenience and will ask our contractor to minimize the impact of their activities on the Project area to the extent possible. We appreciate your patience as we work together to complete this important project.

**On-site Contacts** – During the Project, the CA firm (TBD) will be the DCWWA’s field representative and will be coordinating the work with our Contractors in the project areas. Should you have a question or concern, please contact in person the Contractor (TBD) field crew supervisor or the CA field representative. You may also contact the DCWWA.

Contractor – TBD after contract award  
TBD Team – (845) NNN-NNNN

Field Representative – TBD  
Field Construction Administration Observer – TBD after contract award  
Construction Administration Consultant – TBD after contract award

System Operator  
System Emergency: Mon-Sun., 845-926-8790 (Cody Nelson) or 845-706-7424 if you are unable to reach Cody Nelson  
All System Emergencies after 4:00 pm and on Saturday and Sunday should be directed to Byrnes Answering Service at (845) 431-6677

DCWWA –  
Project Manager – Gary Banks – (845) 486-3601  
Main Office – (845) 486-3601

Thank you for your cooperation with this Project.
